The Land of Art & Effort

About us

Sanaye Plastic Khuzestan Company is the first and most reputable manufacturer of film, sheet and packaging containers in Iran, which was established in 1984 during the years of imposed war and 8 year defense. Since its launch, the Company has been continuously working to grow and improve the quantity and quality of its products. With the latest technologies in the world as the largest producer of disposable tableware and packaging, the Company succeeded to create a huge change in the country's packaging industry. Now, Sanaye Plastic Khuzestan is a reliable name in the country's food packaging industry, which considers the desired quality as one of the basic principles of its activity and bases its success on decades of efforts in quality control. The Company also moves in the field of environmental responsibilities in compliance with international standards and requirements, and considers the observance of these principles as its concern and moral and human performance. Sanaye Plastic Khuzestan Company considers the success and continuity of its industrial life not only dependent on internal measures of the organization, but also the participation of intelligent customers in supporting superior and completely hygienic products as an effective factor to encourage all manufacturers to take the right path and constructive competition. It also prevents non-standard products from entering the market. Azizalah Nayeri is a self-made entrepreneur, a very affectionate man from the south part of the country who has been as firm as a palm trees in all years and time periods. He had a difficult childhood and youth, which made him a man with an iron will with great focus on goals. Later, he studied economics and, with a small income from the retail sale of dairy products, provided both a student scholarship and a foundation for future business. During the war between Iran & Iraq, realizing the need and lack of dairy packaging, the establishment of a factory and production unit of Sanaye Plastic Khuzestan became one of his agenda. German machines for the production of plastic containers from the Reifenhauer Company have been installed in Ahwaz and will continue to operate despite all the difficulties. This industrial group enters the development phase after the war, which has continued to this day. Producing unique and innovative products is one of Azizalah Nayeri's priorities. This is a strategy that distinguishes this company from its other colleagues.

SANAYE PLASTIC KHOUZESTAN

Producing Film | Sheet & Packaging Containers

Vision

The main focus of this group in the coming years will be to promote the position of Sanaye Plastic Khuzestan as one of the largest producers of food packaging containers in Central Asia and the Middle East. To achieve this goal, programs have been developed within the framework of the following policies:

- Improving the level of hygiene in packaging by focusing on increasing food-storage capacity.
- Increasing market share based on:
 - Customer satisfaction
 - Maintaining the name and brand of "Sanaye Plastic Khuzestan" as a supplier of the best quality in the food packaging industry.
 - Reducing costs while continuously maintaining the level of efficiency of the organization in the processes related to the production, distribution and supply of goods
- And finally:
- Supporting technology research and development to reduce emissions from the plastics industry.
